Static Load Testing: Furntech - AFRDI approved for users up to &amp; including 135kg. \*Static Load tested to 410kg

\*Any Static Load test is a strength test which simulates higher than normal dynamic loads that may occasionally be applied to a chair by the user.

AFRDI Standard: AFRDI 142 - rated loads for office swivel chairs at 135kg - Single Shift operations.

## Material Analysis

Buro Seating acknowledges its responsibility to develop environmentally sustainable products and business practices and consequently is committed to growing our range of chairs which are manufactured from recycled and/or recyclable materials. Buro's environmental management system (EMS) provides the framework for managing our environmental strategy;

### MAIN PRINCIPLES

- To design, manufacture and source products containing minimal raw materials.
- To design, manufacture and source products that maximise end of use recyclability.
- To reduce, reuse and recycle waste.
- To develop an understanding of legislation relating to the environment that affects the activities of our company.

We are committed to developing a 'cradle to grave' process for all seating products sold in Australia and New Zealand.
